Dear Stewart and Ecuadorian business partner of Manta:

We will certainly establish true and reliable dollar figures in connection with what is needed to start up and what will be earned with the initial projects of *CUENCA RECORDINGS*.

We do these things with a formal *Business Plan* to be made and delivered to us by our designated CPA who specializes in music industry pro forma documents.

Your financial participation in starting up CUENCA RECORDINGS will positively deliver us to the venture capitalists who will contract with us. I have the wherewithal to make these things happen. Please return to your INDEX page and focus on the IN CLOSING PAGE. It is there we address the altruistic and charitable aspects of CUENCA RECORDINGS. Not only do you get paid back, we funnel earnings to your foundation ad infinitum in a proper way proudly fulfilling our promises to carefully contribute, etc.
